

nLeague launches SOA and BPM Center of Excellence

Hyderabad, India. and Alpharetta Ga., February 01, 2007 nLeague (www.nleague.com), today announced the setting up of SoA+BPM Center of Excellence in order to address the challenges of implementing SoA+BPM solutions and help new and existing customers in managing the life cycle of SoA+BPM implementations. The center has been named as 'Rand Center of Excellence (RCoE)'.

The Rand Center of Excellence (RCoE) will be situated at nLeague Hyderabad software development center and will have a team of over 45 resources in Phase I and will add another 75 people by end of this year. The CoE team consists of solution architects, business process modelers, developers and QA engineers.

'Our vision for the SoA+BPM Center of Excellence (RCoE) is to be able to quickly apply the emerging standards, tools and technologies and demonstrate the virtualization of services and processes in the new world" states 'Sri Nagabhirava', CTO of nLeague, while commenting on the launch of Rand Center of Excellence.

'Rand Center of Excellence with its focus on SoA and BPM technologies will help our new and existing customers to quickly assess various technology and tool options and provide a low cost delivery model for the adoption of SoA and BPM technologies during the life cycle of SoA and BPM implementation ' commented 'Sri Dhan' VP, Strategy & Business Development.

About nLeague

nLeague was founded on the theme of provisioning services that will help companies integrate their business troposphere. The company has niche strengths in building and managing a businessoriented IT environment with rich experience in SOA, BPM, EAI and B2B/EDI. We provide solutions and services in:
